Profile Summary

I have a great track record and have been recognized as a top employee for several quarters.

Roles and Responsibilities:

- Focus on creating the structural layout and design of web pages using HTML, CSS, and occasionally JavaScript to ensure responsive and accessible designs.
- Design, develop, and maintain websites using the WordPress platform, including creating and customizing functionalities tailored to client requirements.
- Build and customize e-commerce stores using the Shopify platform, implementing features, optimizing performance, and integrating third-party tools to enhance user experience and business operations.
- Ensure cross-platform and cross-browser compatibility, adhering to best practices and web standards.
- Troubleshoot and resolve technical issues across various platforms, maintaining performance, and scalability.
- Collaborate with clients, designers, and teams to gather requirements and deliver tailored solutions.
- Optimize websites and applications for SEO.
